

Fig. 1. Heat transfer capability of binary noble gas mixtures relative to pure helium.

FIG. 3A

Heating Curves For Helium, Argon, and Mixtures
(Steam Jacket: L = 9.41 in, ID = 0.25 in)

FIG. 3

FOOTPRINTS

Heating Curves For Helium, Carbon Dioxide, and Mixtures
(Steam Jacket: L = 9.41 in, ID = 0.25 in)

FIG. 4

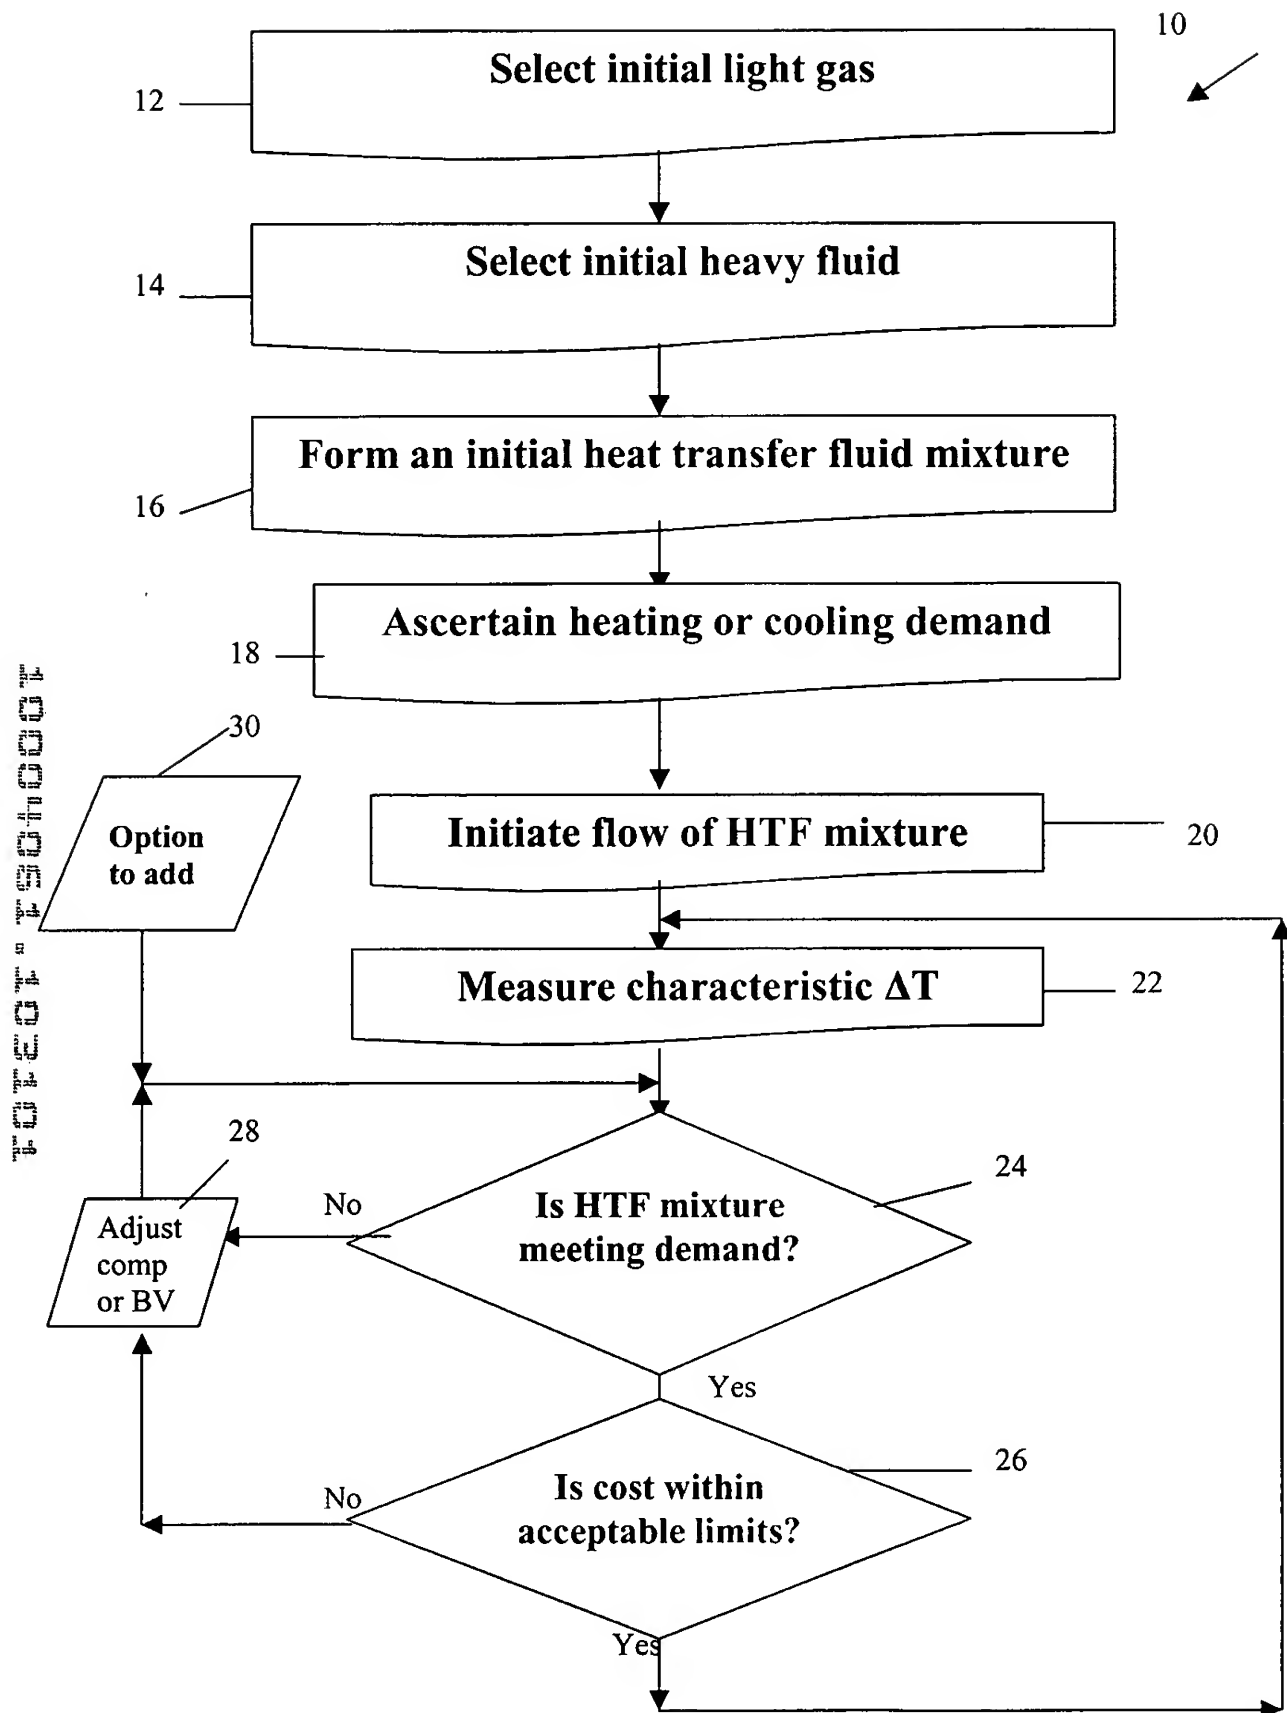

FIG. 5
